# DETAILS ABOUT EVALUATION PROCESS

## What are the five performance levels?

Lawmakers are given one of five performance grades. Each grade indicates to business leaders how, in general, legislators support economic growth, jobs and other broad job-related issues.

<b>BUSINESS CHAMPION</b>	<b>A</b>
<b>STRONG BUSINESS SUPPORT</b>	<b>B</b>
<b>AVERAGE BUSINESS SUPPORT</b>	<b>C</b>
<b>BELOW AVERAGE BUSINESS SUPPORT</b>	<b>D</b>
<b>FAILING BUSINESS SUPPORT</b>	<b>F</b>

## What does a performance evaluation mean?

BIPEC's performance evaluation is a measuring stick used to determine each legislator's business philosophy, attitude and effectiveness in supporting growth of jobs in Mississippi. Over 60 business and professional leaders participate in the rating process. Key factors of the assessment are:

- Legislator's votes on clearly identified economic principles and employer issues
- Leadership in committee and floor debates on job-related issues
- Encouragement of other legislators to support economic growth and build coalitions

## What types of votes are used in the ratings?

It is important to note that no single issue dominated BIPEC's ratings. A great deal of effort is made to ensure that the votes chosen represent a broad cross-section of employer-related issues. Votes impacting operating costs and restriction of management choices are viewed as very important. Key subject areas include:

- Government growth
- Government regulation
- Privatization of government services
- Lawsuit reduction
- Environmental protection
- Labor/management issues
- Incentives for job growth
- Workers Compensation
- Business taxation
- Government spending controls
